EU Declaration of Conformity and Risk Assessment – Crimping Tool with 6 Interchangeable Dies

Product Description

WKK's crimping tool with six interchangeable dies is designed for the precise crimping of various cable terminals and connectors. The tool ensures high-quality crimps across different cable sizes and terminal types and is supplied with multiple die sets for flexible use.

Limits of Use

The crimping tool is intended solely for crimping operations on electrical terminals and connectors. It must not be used for cutting, hammering, or other mechanical tasks.

Hazard Analysis

1. **Mechanical Hazards:** Risk of pinching or crushing injuries during crimping.
2. **Handling Hazards:** Risk of repetitive strain injuries if used improperly.
3. **Wear Hazards:** Risk of crimp quality degradation if worn dies are not replaced in time.

Risk Assessment

- Mechanical risks are moderate without appropriate use.
- Handling risks are low with correct ergonomic usage.
- Wear risks are minimal with regular inspection and maintenance.

Risk Mitigation

1. **Correct Operation:** Use the tool according to the manufacturer's instructions.
2. **Protective Equipment:** Wear gloves if needed to avoid pinching.
3. **Maintenance:** Inspect and replace worn or damaged dies immediately.

Warnings and Instructions for Use

- Use only for crimping terminals and connectors within specified cable sizes.
- Do not use the tool for cutting, hammering, or mechanical force application.

Declaration of Conformity

WKK GmbH hereby confirms that the crimping tool with interchangeable dies complies with all applicable European standards and directives.
